PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Ternopol Army Barracks North is located on the northeast side of Ternopol (Figure 1). The installation (Figures 2 and 3) covers approximately 125 acres, is road served and has rail access.

The following major structures were noted at the installation: 10 multistory barracks, three multistory administrative buildings, 16 administrative buildings, four vehicle storage buildings, five warehouse-type storage buildings, six storage buildings, two double secured ammunition storage buildings, and 11 petroleum

tanks. (Four probable communications buildings are not shown on Figure 3.)

A small arms range (not shown on Figure 3) located east of the installation is the only troop training facility.

The installation, covered by [redacted] missions between [redacted] is active and little change has been noted since [redacted] however, improved later photography reveals buildings which are not new but could not be previously identified.

DESCRIPTION OF INSTALLATION

Railroad Service

The installation has road access to the adjacent Ternopol railroad yard.

Road Service

The installation is served by local all-weather roads.

Administrative and Troop Housing Areas

Area D1 contains four multistory barracks, two multistory administrative buildings, and seven administrative buildings.

Area D2 contains six multistory barracks, one multistory administrative building, two administrative buildings, and three storage buildings.

General Storage Area

Area E contains five warehouse-type storage buildings.

Ammunition Storage Area

Area F contains two 130- by 35-foot am-

munition storage buildings and one administrative building.

POL Storage Area

Area G contains 11 POL tanks -- two 55 feet, one 45 feet, two 35 feet, and six 25 feet in diameter--and three administrative buildings.

Other Buildings

The installation has four probable communications structures (not shown on Figure 3).

Equipment Storage/Maintenance Area

Area J contains four vehicle storage buildings (one 160 by 30 feet, one 210 by 35 feet, one 240 by 35 feet, and one 290 by 30 feet), three administrative buildings, and three storage buildings.

Small Arms Firing Range

The small arms firing range (not shown on Figure 3), 1,400 by 90 feet, is located east of the installation.
